THE CHURCH FOR ALL...

t is a storellouse of spiritual values. Without

strong Church, neither democracy nor civilization

can survive. There are four sound reasons why

every person should attend services regularly

and support the Church. They are (1) For his

own sake. (2) For his children's sake. (3) For the sake of the Church itself, which needs his moral

and material support. Plan to go to church regularly and read your Bible daily.

#### Highway Hypnosis

Once again there is the recurring danger of highway hypnosis, occasioned by the monotony of smooth highways, the mechanical perfection of the engine's hum, the rythmic pattern of lights, and on warm evenings the lulling effect of mild temperatures.

How many of us have succumbed to these hypnotic effects, but were fortunate enough to be jerked wide awake before our cars got out of control and produced a tragic accident? Just about everyone, says the safety director of the Keystone Automobile Club, who has issued another warning, complete with recommendations about how to avoid the highway hypnosis.

There are many ways to keep from falling into a comatose state while behind the wheel of your car: keeping up a conversation, adjusting the round of the radio, moving about in the seat, maintaining a flow of air through the vehicle, and generally effecting an at least semi-alert state.

Without this, anything can happen, and only too often

So, when they actually reach the age 65, at which old age benefits begin, the social security records show them to be 59, or even less. And it's pretty hard for even an outraged woman to persuade a government agency to change

T. L. Gaukel, the Social Security Administrator for St. Louis, says some women in his area have misrepresented selves, and neglect even to apply for old-age benefits.

Obviously a tactful man, Mr. Gaukel does not advise women to stop lying about their ages everywhere only to Social Security people, who, he promises, will not tell a soul.

Such a promise from a mere man is meaningless, of course, as men are notorious gossips. How did Mr. Gaukel find out about all these determined deceivers, if not from

Fortunately, the head of the department which supervises Social Security is a woman, Mrs. Oveta Culp Hobby. Let her protect this sacred right of womanhood, or there from the Justice Department to will be no justice.
